Tarang Katiyar

Student @ Gurukul The School | Keen Tech Enthusiast | Creative Innovator | Sustainability Advocate | Building Future-Ready Ideas | Learner. Maker. Changemaker.
Delhi, India

Summary

I believe in learning as an ongoing journey, where each step leads to personal growth and the ability to make a positive impact. Right now, I'm deeply focused on how technology can address real-world challenges, help communities evolve, and drive the development of a sustainable future.

1. Tech Enthusiast & Innovator

My passion for technology drives me to explore diverse fields — from web development to VFX, GFX, and videography. I enjoy discovering how tech can solve practical problems and bring creative ideas to life. I'm particularly drawn to sustainability and constantly thinking of innovative ways to harness technology for eco-friendly solutions.

2. Sustainability Advocate

I'm committed to creating solutions that not only improve lives but also benefit the planet. Whether through tech projects, environmental initiatives, or innovative ideas, my goal is to contribute to a more sustainable future. I believe that technology is a powerful tool for change, and I am always looking for ways to use it to create a lasting positive impact on our environment.

3. Problem Solver & Critical Thinker

The time I've spent working with STEM concepts has shaped my approach to problem-solving. I apply analytical thinking to real-world issues, and my exposure to design thinking pushes me to approach challenges from creative and alternative perspectives. This mindset nurtures both my innovation and resilience.

4. Committed to Community Impact

In addition to my passion for technology and sustainability, I'm dedicated to giving back to my community. Through various initiatives, I'm working to raise awareness around important social

causes and help others. I'm always eager to collaborate with like-minded individuals and explore how we can work together for a better future.

5. Holistic Approach to Growth

Outside of tech, I engage in activities that nurture both my body and mind. From cricket and badminton to running and cycling, I believe in a well-rounded approach to personal development. Participating in design competitions has also helped me hone my creativity and problem-solving skills.

Experience

Gurukul The School(Official)

5 months

Class Representative

May 2025 - Present (4 months)

As the Class Representative at Gurukul The School, I acted as a bridge between students and teachers, ensuring clear communication and smooth coordination. I represented my class in meetings, voiced concerns, and shared important updates while assisting in organizing academic activities. This role strengthened my leadership, communication, and problem-solving skills, fostering responsibility, teamwork, and accountability.

Sustainability Club

April 2025 - Present (5 months)

As an active member of the Sustainability Club at Gurukul The School, I've had the opportunity to explore how small actions can make a big difference in building a greener future.

Collaborated with peers on projects that encouraged sustainable practices and innovative solutions for real-world problems.

Strengthened my skills in teamwork, innovation, and problem-solving while gaining a deeper understanding of how sustainability can shape a better tomorrow.

This experience has nurtured my passion for sustainability, inspiring me to contribute toward positive change and environmental stewardship.

Gurukul The School(Official)

2 years 1 month

Administration (Admission Drive)

July 2024 - January 2025 (7 months)

Tech Club

January 2023 - January 2025 (2 years 1 month)

As an active member of the Tech Club at Gurukul The School, I've had the opportunity to explore and expand my skills in game creation, video editing, and creative software tools.

Learned to design and build interactive games using Sandbox, developing logic, design thinking, and storytelling.

Gained hands-on experience with Filmora, editing videos for school events and tech projects with a focus on clean visuals and engaging narratives.

Collaborated with peers on tech-based mini-projects and participated in club activities that promoted creativity and innovation.

Strengthened my understanding of user engagement, visual effects, and basic game mechanics while exploring how technology can be both educational and fun.

This experience has helped shape my technical journey, building both confidence and curiosity in using digital tools for creative expression.

Academic Class Representative

April 2023 - February 2024 (11 months)

As the Academic Class Representative at Gurukul The School, I was responsible for facilitating communication between students and faculty on academic matters. I coordinated assignment deadlines, shared curriculum updates, and conveyed feedback to teachers while ensuring clarity for classmates. This role enhanced my organizational, communication, and leadership skills, helping me support both academic excellence and collaborative learning within the class.

Google Cloud Skills Boost

Google Arcade Lab Player

September 2023 - January 2024 (5 months)

Through the Google Cloud Arcade program, I gained practical experience with core Google Cloud Platform (GCP) services such as Compute Engine, Cloud Storage, and various AI/ML tools. The program's hands-on, project-based format enhanced my understanding of cloud architecture, distributed systems, and data lifecycle management.

Worked on real-world tasks that challenged me to optimize workflows and scale solutions using cloud-native technologies.

Built and deployed solutions that sharpened my skills in cloud computing, automation, and innovation.

Developed a deeper passion for using cloud infrastructure to create efficient, data-driven tech solutions.

As recognition for successfully completing the program, I earned exclusive digital badges and cool rewards like a Google Cloud cap—a reflection of my dedication to continuous learning and advancement in the cloud domain.

GoSharpener

ProMotivator

January 2023 - January 2024 (1 year 1 month)

As a Promotivator role at Go Sharpener, I actively encouraged individuals—especially youth—to embrace sustainable habits and rethink their relationship with nature.

Led conversations and shared actionable tips to inspire environmentally conscious choices in daily life.

Used social storytelling, digital posts, and one-on-one discussions to spread awareness about sustainability.

Collaborated with like-minded peers in the movement to foster a community of young changemakers.

Through consistent and keen gestures of movement and initiative, I became a voice for mindful living and ecological responsibility.

This role strengthened my purpose as a tech-driven climate advocate and allowed me to merge communication, leadership, and activism in impactful ways.
